STORY

In order to uncover the secret plans of Ostania's warmongering party chairman Donovan Desmond, Westalis secret agent Twilight has been ordered to create a fake family and enroll his child at the prestigious Eden Academy. By sheer coincidence, the daughter he selects from an orphanage is secretly a telepath, and his wife only agrees to the sham marriage to protect her own secret identity as a contract killer! Even the dog they adopt possesses the power of precognition! Now each member of the Forger family finds themselves confronting various challenges, while concealing their true natures from one another.
