THE MENACE
OF THE STAR MAKER

GALAXIES AND PLANETS: THE MENACE OF THE STAR MAKER

SCIENCE CONTENT and TEXTS

Scientific Committee: Dr. Edwige Pezzulli (Researcher at Italian National Institute for Astrophysics, Rome, Italy), Dr. AnnMarie P. Thomas (Professor of Engineering and Business at the University of St. Thomas, Director of the Playful Learning Lab, St. Paul, Minnesota, USA), Andrea Vico (Science Journalist and Writer), Prof. Zhangjun Wang (Chief Expert of Science Popularization in Evolutionary Biology, China Association for Science and Technology, Beijing, China)

Scientific Committee Coordinator: Andrea Vico

Authors: Edwige Pezzulli and Andrea Vico for Book on a Tree Ltd.

Translations: Emma Clanchi and Ailsa Wood for Book on a Tree Ltd.

Editors: Barbara Gozzi and Simona Grandi for Book on a Tree Ltd.

Art Notes: Tea Orsi for Book on a Tree Ltd.

COMIC SCRIPTS and CHARACTER FILES

Meet the BIG HERO 6 team!.....	4
--------------------------------	---

UNIT 1 - THE ORIGIN OF EVERYTHING

IT'S A BIG HERO UNIVERSE!	7
From the Big Bang to Stars	
• The big bang theory.....	17
• The story of the universe.....	18
• The birth of the stars.....	19
• How does a star die?.....	20
THE STAR MAKER	21
Gravity	
• Gravitation.....	31
• Gravity and weight.....	32
• Watching the sky.....	33
• Galaxies.....	34

A GALACTIC PLAN	35
From Stars to Galaxies	
• Dark matter.....	43
• Cosmic structures.....	44
• The Milky Way.....	45
• Grandmother galaxies.....	46
GOING SUPERNOVA	47
Einstein's Theory	
• "Soft" space.....	59
• Speed and time.....	60
• Black holes.....	61
• Strong gravity.....	62

UNIT 2 - OUR HOME: THE SOLAR SYSTEM

A DANGER FROM OUTER SPACE!	63
The Solar System	
• The planets.....	73
• Distances involved.....	74
• Life on Earth.....	75
• Looking for life.....	76
MYSTERIES AND SECRETS	77
Exploring Planet Earth	
• The shape of Earth.....	87
• Earth's atmosphere.....	88
• Earth and the Sun.....	89
• Earth and the Moon.....	90

METEORITE VS ASTEROID	91
More About the Sun	
• In orbit.....	101
• All connected to the Sun.....	102
• A star's energy.....	103
• Not just light.....	104
LET'S SAVE SAN FRANSOKYO!	105
Patterns in the Sky	
• The constellations.....	115
• Eyes on the sky.....	116
• Not only planets.....	117
• Falling from space.....	118

UNIT 3 - CONQUERING SPACE

IT'S A UFO!	119
Seeing the Stars Close Up	
• Journeys in space.....	129
• Early rockets.....	130
• The first human in space.....	131
• Ready for takeoff!.....	132
STRANGERS IN TOWN	133
Conquering the Moon	
• A great objective.....	143
• A laboratory in orbit.....	145
• The shuttles.....	145
• A home in space.....	146

CLOSE TO THE TRUTH	147
The Great Space Race	
• Working together.....	157
• Satellites everywhere!.....	158
• Global Positioning System.....	159
• Environmental satellites.....	160
FROM ENEMIES TO FRIENDS	161
Living Among the Stars	
• From Gagarin to Padalka.....	171
• Peace in orbit.....	172
• Back to the Moon.....	173
• When are we going to Mars?.....	174

Check arena.....	175
------------------	-----

Meet the BIG HERO 6 team!

Inventive and enthusiastic, **Hiro** is the mind of the BH6 team and is always working on new upgrades to make his group stronger and more effective. Despite his bold nature, he has a big heart and would do anything to protect his friends and San Fransokyo.

SUPER GEAR: The red magnetic pads on his suit enable him to hold onto Baymax when he flies.

Calm and cuddly, **Baymax** is the inflatable personal healthcare companion robot created by Hiro's brother, Tadashi. He has the ability to scan a patient, diagnose a problem and provide treatment, but he needs regular recharging, or he begins to deflate.

SUPER GEAR: When he wears his red armor, Baymax can fly and has a rocket fist that can detach from his arm.

This physics genius is also a super cautious nerd, but he supports his friends even in the scariest situations. At San Fransokyo Institute of Technology, everybody knows Wasabi's talent, and they think that he can invent anything.

SUPER GEAR: His super suit features retractable plasma blades that form different shapes and can cut every kind of material.

Happy and outgoing, Fred is a huge fan of comic books. He is no science geek, but he loves hanging out with his "super-smart" friends at San Fransokyo Institute of Technology. Thanks to Hiro, his lifelong dream of becoming a super hero has finally come true.

SUPER GEAR: His Kaiju monster suit enables him to jump incredibly high and breathe fire.

Honey Lemon can see the bright side of everything, but she also loves extreme danger. Besides having a sunny and sweet personality, she's a chemistry genius and can create all sorts of amazing mixtures.

SUPER GEAR: Her pink chem-capsules contain different chemicals, such as hardening foam to halt movement and smokescreens for camouflage.

Tough, athletic, and super loyal, Go Go combines a brilliant engineering mind with a passion for extreme speed. She loves building bikes with electro-magnetic suspension and usually recycles the wheels to make something even faster.

SUPER GEAR: Go Go's suit gives her impressive velocity. She can throw her discs like boomerangs and use them to skate vertically up walls.

IT'S A
BIG HERO
UNIVERSE!

WE'RE
GONNA MAKE
IT, GUYS!

C'MON!

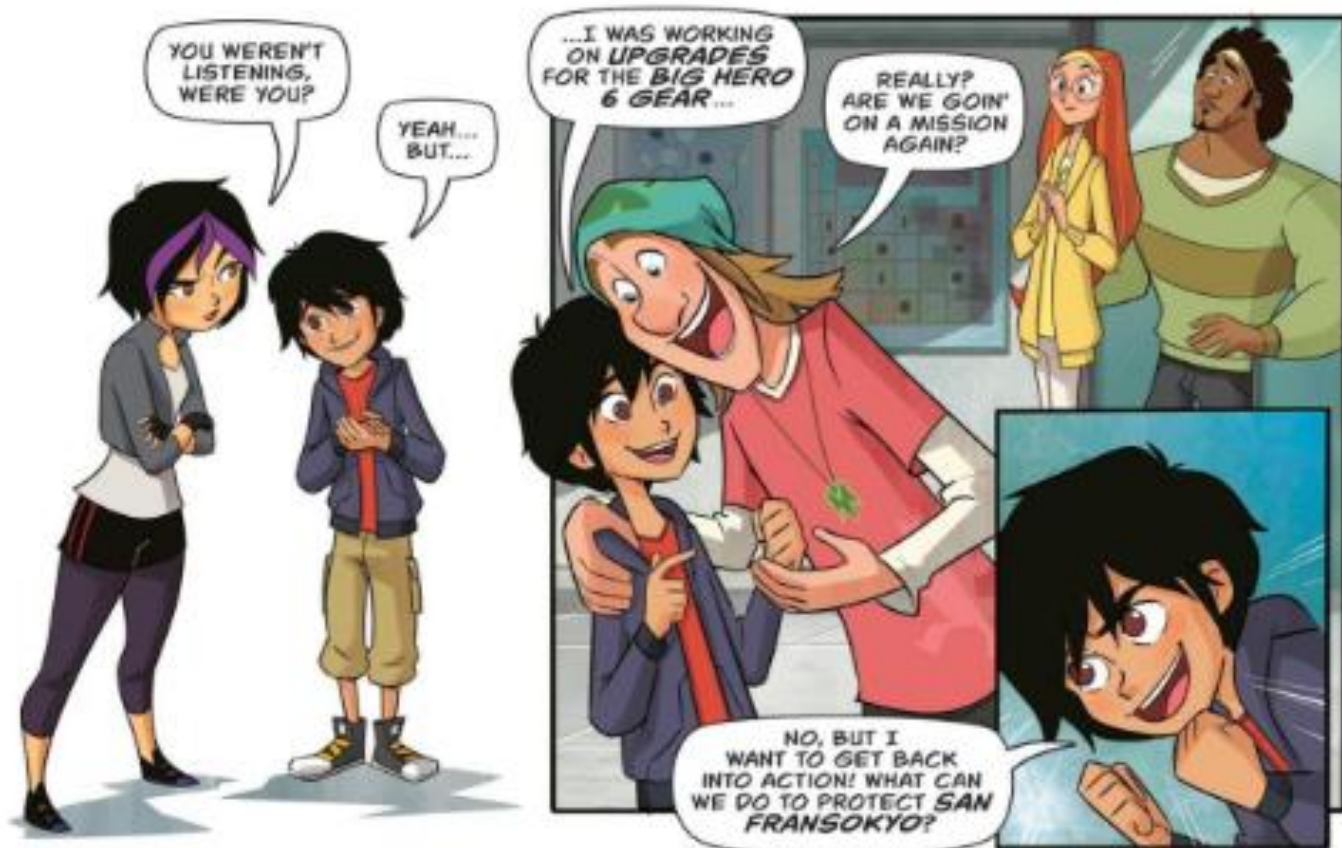

AS YOU KNOW,
TELESCOPES CAN
MAGNIFY IMAGES AND HELP
US SEE FARAWAY **STARS**
AND GALAXIES, BUT THEY
ALSO ALLOW US TO
TAKE **PHOTOS**.

DAYDREAMING OF BATTLES AGAINST
DANGEROUS MONSTERS, HIRO IS
SKETCHING SOME UPGRADES FOR
THE **BIG HERO 6 TEAM**...

BEFORE
STARTING THIS
PROJECT, WE STUDIED THE
SKY WITH A **REFRACTING
TELESCOPE**, WHICH
IS VERY SIMILAR TO
OUR EYES...

...BUT IT
CAPTURES MUCH
MORE LIGHT THAN
THEY CAN. THAT'S WHY
THE TELESCOPE LETS
US SEE SO FAR.

* A PhD IS A DEGREE ASSIGNED TO PEOPLE WHO HAVE DONE ADVANCED RESEARCH INTO SPECIFIC SUBJECTS.

BUT...

I DON'T
KNOW WHY
WE'RE
HERE...

BECAUSE
YOU'RE MY
FRIENDS AND
CAN'T HELP
TRUSTING MY
FEELINGS!

HIRO,
CAN YOU TELL
BAYMAX THAT
I'M FINE?

ON A SCALE
OF ONE TO TEN, HOW
WOULD YOU RATE YOUR
NERVOUSNESS?

TEN, BUT...
HE'S SATISFIED
WITH HIS CARE,
BAYMAX!

HERE!
THIS IS THE
LAB!

OH, NO! THIS
IS THE ROOM WHERE I
WORK ON THE SECRET
PROJECT...

ASTRONOMY LAB
KYS7B

GREAT!
TELL US THE
ACCESS
CODE!

I DON'T
KNOW IT! THEY
USUALLY LET
ME IN...

GREAT,
HOW WILL WE
GET IN?

LET'S
TRY HACKING
THE CODE!

THE **BIG BANG**! THIS IS AMAZING!

YUP, I ACTUALLY HELPED CREATE THIS **HOLOGRAM** TO EXPLAIN THE **BIRTH OF THE UNIVERSE**.

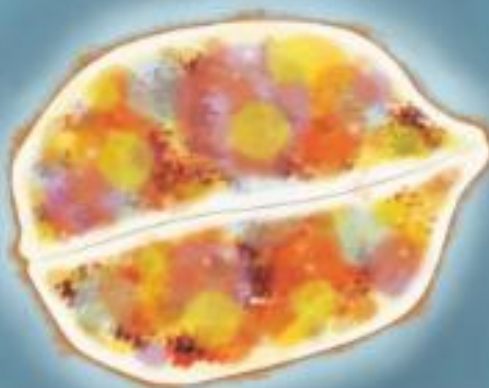

PSSHEW

IT ALSO EXPLAINS THE WHOLE **BIG BANG THEORY**!

THE **BIG BANG** HAPPENED 13.8 BILLION YEARS AGO. SOME PEOPLE THINK THAT IT WAS A **HUGE EXPLOSION**, BUT IT WAS SOMETHING MORE COMPLEX...

...WHEN IT HAPPENED, THE UNIVERSE FORMED AND DIDN'T ACTUALLY EXPLODE-- IT STARTED **EXPANDING**.

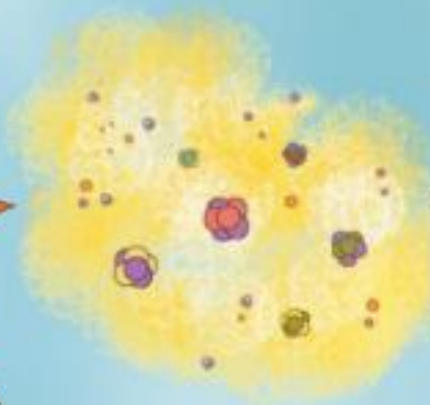

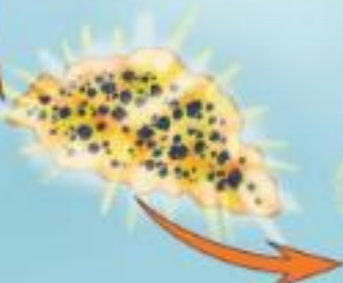

AT FIRST, THE ENTIRE **UNIVERSE** WAS SQUISHED UP INSIDE A SPACE THAT WAS MILLIONS OF TIMES SMALLER THAN A LITTLE WALNUT.

"ALL PARTICLES OF MATTER AND ENERGY WERE COMPRESSED IN AN INCREDIBLY HOT AND DENSE **PRIMORDIAL SOUP**. THEY WERE SO CLOSE TOGETHER THAT THEY WERE TRAPPED AND COULDN'T MOVE ANYWHERE..."

"...BUT THEN, SPACE STARTED TO STRETCH OUT. THE PARTICLES **SEPARATED** FROM ONE ANOTHER, AND THE SOUP BEGAN TO COOL DOWN."

"THE UNIVERSE KEPT EXPANDING FOR MILLIONS OF YEARS."

"...AND FINALLY THE MILKY WAY AND THE SOLAR SYSTEM FORMED."

"THEN THE FIRST STARS AND THE FIRST GALAXIES WERE BORN..."

"WOW! MY FAVE PART OF THIS STORY IS THAT SOME MINUTES AFTER THE BIG BANG, THE BASIC **CHEMICAL ELEMENTS** FORMED!"

"EXACTLY, AND--"

"SORRY TO INTERRUPT YOU GUYS, BUT...WE HAVE A **PROBLEM**..."
